AWARD-WINNING KITCHEN SOLUTIONS

BLANCO experts trusted for over 95 years

Passionate kitchen experts you can trust with over 95 years of experience in kitchen water hub solution technology. BLANCO is recognized worldwide for its modern design, ergonomic details and reliable product quality. BLANCO systems make a significant contribution towards upgrading kitchens around the globe when it comes to preparing food, drinking and cleaning.

Enjoy smart solutions to everyday kitchen chores with premium products backed by industry-leading German engineering. All components of the BLANCO UNIT, from kitchen faucet to cabinet storage, are perfectly integrated with one another and produced to the highest quality standards. BLANCO creates kitchen water hub systems that are meticulously designed down to the finest detail.

WHAT IS A BLANCO UNIT?

Everything you need, all in one place.

BLANCO UNIT
drink. prep. clean.

A BLANCO UNIT is a seamless, fully-integrated kitchen water hub solution designed to make everyday life in the kitchen easier. The combination of a BLANCO sink, faucet and accessories streamlines how you operate in the kitchen and enhances your experience with water. Everything you need to **drink, prep and clean** is all in one place.

The water hub plays a vital role in kitchen activities, over 60 percent of kitchen time is spent in this space. The BLANCO UNIT meets your needs by being a source for drinking and cooking assistance, a place for food preparation and a system for cleaning up life's messes.

There are endless opportunities to customize your BLANCO UNIT based on your design and functional preferences. Look to our suggestions to build a unit that resonates with your household lifestyle. No matter your selection, you can trust BLANCO with over 95 years of international experience bringing high-quality products and solutions to your kitchen.

DRINK

Your source of water. Water plays an essential role in kitchen life. When it comes to accessing water in your kitchen, you want a smart and trustworthy solution. A BLANCO UNIT will provide you with a beautifully-designed faucet that is functional and intelligent.

PREP

Focus on the food. Having a well-thought-out solution that simplifies your workflow will make things easier and save you time. Put your energy and focus into your next culinary masterpiece with the help of a BLANCO UNIT. Premium sink and accessory combinations streamline meal prep and reduce clean-up.

CLEAN

Clean up as you go. Life in the kitchen can get disorganized, especially under the sink. Complete your BLANCO UNIT with the innovative BOTTON II, a storage system designed to hold cleaning supplies and recycling material under the sink and out of sight. Don't sacrifice space, maximize it.

HOW TO CHOOSE A BLANCO UNIT

Seamlessly integrated sink, faucet and cabinet organization.

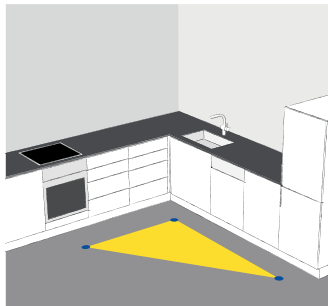

A BLANCO UNIT starts with a sink

There are strong trends in kitchen design for various sink styles, but the decision should be made based on how the water hub will be used. There are many options to consider: farmhouse or standard undermount, single bowl or double bowl, Silgranit or stainless steel. How your kitchen is used will impact your sink selection.

Faucet styles, features & finishes

Our high-quality faucets are easy to use and durable. Sustainably re-engineered with water saving benefits, determine what style will fit the design of your kitchen. Be sure to check critical faucet dimensions like height and reach. This will ensure there is adequate clearance above the faucet and that it's proportionate to the size of your sink.

Planning a kitchen

Kitchen planning starts with people. From eager foodies to gourmet chefs, we all actively use kitchens and appreciate them as the heart of our homes. We are all different, but we all want to enjoy the time we spend in the kitchen.

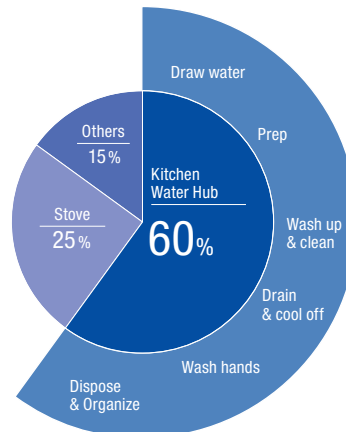

Detailed measurements and an understanding of access points for water, drainage and power supply are critical parts of the kitchen planning process. Every kitchen has three key areas: the water hub (sink and faucet), the cooking area (oven and stove) and storage (cabinets and refrigerator). Together they form the working triangle. When defining these three spaces, try to keep the distance between them tight while still allowing enough space for safe maneuvering.

The key role of the water hub

The busiest area in the kitchen is the water hub, where we spend over 60% of our time. Although usage varies, we all generally use the water hub in similar ways: the cleaning station to eliminate dirt and bacteria from food and kitchenware, the hand-washing station, the source of cooking & drinking water and as a disposal area for food waste and liquids.

Know your options

Style, color and material combinations are key factors in building the right kitchen water hub. Mix and match our products and create the perfect combination that appeals to your customers' style and meets the needs of their lifestyle.

Enhance with functional accessories

Create a seamless workflow experience with the addition of accessories. Customize your UNIT with a soap dispenser, foldable and floating grids or cutting boards that can be placed in the sink for streamlined use.

Maximize your base cabinet

The combination of a BLANCO faucet and sink has benefits that will last a lifetime, but to truly make the most of this area, you must organize it! Sink cabinets have great potential for optimizing workflow by keeping cleaning products and/or recycling items organized and easily accessible, providing a clean, flexible solution right where it's needed.

SELECTING YOUR BLANCO UNIT

How to choose a sink and faucet

HOW TO CHOOSE A SINK

Determine the size of your sink cabinet

- Standard kitchen cabinets come in size increments of 3" (for example 18", 21", 24", 27", 30", 33", 36" etc.).
- Measure from gable to gable (left to right). Be sure to measure from outside edge to outside edge.
- This is the minimum cabinet size. All BLANCO sinks indicate the minimum cabinet size requirements.

Determine the depth of your countertop

- When installing an undermount sink, it is important to ensure that enough space is allocated for the faucet, fixtures and other materials behind the sink. We recommend consulting your installer.

Sink material

SILGRANIT	Stainless Steel	Fireclay
<ul style="list-style-type: none"> – Patented granite composite material – Available in 9 beautiful colors – Made of up to 80% quartz sand, the hardest element of granite, Silgranit is extremely durable and strong. – Easy to clean thanks to its non-porous surface. 	<ul style="list-style-type: none"> – Heat and stain-resistant – BLANCO stainless steel sinks come equipped with sound absorbing pads to reduce noise 	<ul style="list-style-type: none"> – Ultra-smooth, polished surface – High gloss white – Easy to clean

Installation methods

Undermount

Undermount sinks bring a touch of refinement to any kitchen. A pleasure to own, especially at clean-up time, their design allows crumbs to be easily swept into the bowl. Truly a clean design.

Three undermount reveal options are possible depending on individual preference. These options apply to both Stainless steel and Silgranit undermount sinks. **Note that BLANCO templates for most undermount sinks provide a 1/8-inch reveal around the bowl which is necessary to proper fit of accessories and cutting boards.** Check the instructions on the template that comes with your BLANCO sink to see the reveal measurement allotted by that template. Sink templates are supplied only as a guide. The physical use of the sink will ensure a more accurate cutout.

Finally, ensure that enough space is left behind the sink for any fixtures that may be required – including faucet and other accessories.

Countertop edge sits back from the edge of the sink, exposing the sink rim, typical 1/8".

Countertop meets the edge of the sink, fitting flush.

Countertop extends over the edge of the sink.

Drop-in

Sink is installed from above. Great for any countertop type, especially laminate countertops.

Farmhouse sinks

Most farmhouse sinks have a customized undermount installation, however please refer to individual product instructions for more details.

HOW TO CHOOSE A FAUCET

Faucet height

Ensure upper cabinetry doesn't interfere with the faucet. Consider a High Arc style for island installations or in front of windows.

Faucet reach

Check the proportions by measuring the spout's reach from its base to see if it's a fit with your sink.

SILGRANIT® SINKS

Beautiful. Strong. Clean.

Silgranit sinks are admired around the world for their exclusive styles and designer color palette. The kitchen has become a central point in our homes and a reflection of our lifestyle. And your sink is an integral part of your daily kitchen routine. With such a wide assortment of styles, configurations, colors and sizes, we know you will not only find, but also fall in love with your new Silgranit sink.

Silgranit sinks are admired around the world for their exclusive styles and designer color palette. The kitchen has become a central point in our homes and your sink is an integral part of your daily kitchen routine. Dare to fall in love with a Silgranit sink.

Exclusive Design. Our Silgranit portfolio is offered in 9 different colors and features over 300 exclusive sink designs. Striking hues like our latest Coal Black, will make your Silgranit sink the statement piece you've been looking for.

Unsurpassed Durability. The ultimate choice for long-lasting kitchen bliss. Scuff marks, hot pans and baking trays don't stand a chance against Silgranit.

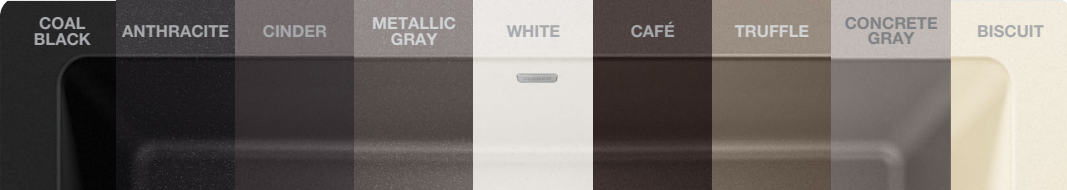

Easy to Clean. Silgranit has a smooth, non-porous surface that is water and dirt repellent making it stain-resistant and easy to clean.

BUILD A COLOR-COORDINATED BLANCO UNIT

Make a stylish statement in the kitchen. The design dialog is not complete without color. Our Silgranit sinks and faucets create a streamlined look when paired together. With nine nature-inspired hues to choose from, there are endless combinations to build the perfect color-coordinated BLANCO UNIT for any home.

BLANCO SILGRANIT® COLOR PALETTE:

COAL BLACK

Captivating. Intense. Endless Black.

Discover amazing new design opportunities with the ultimate black accent for your kitchen. Our latest Silgranit color, Coal Black, is a deep, intense, flat black that coordinates beautifully with matte cabinetry and countertop finishes found in contemporary kitchens. Whether you want a light kitchen with black accents, or a dark, dramatic monochromatic kitchen design, Coal Black is the perfect choice for those who love **bold design**.

No speckles. No sparkles. Just black. Coal Black is a pure, flat, seemingly endless black color with a smooth silk-matte feel. This tastefully eye-catching shade of black comes with the same quality, performance and material benefits of our other Silgranit colors.

FOLDABLE GRID

One tool, endless versatility.

It is often the clever accessories that make everyday kitchen tasks so much more convenient and efficient. The new foldable grid is just that, a multi-purpose sink accessory designed to maximize space above the bowl. Use it as a rack for rinsing produce, drying dishes, heat protection for countertops or a practical addition to the worktop to help ease prep and fill pots. The options are limitless, making it an indispensable tool in your kitchen.

The foldable grid is made of high-quality stainless steel rods, connected by flexible, slip-proof silicon for added stability. When it is not in use, it can be folded up and stowed at the edge of the sink or in your cabinet. The foldable grid is a recommended optional accessory for a variety of sink and bowls.

NEW

KITCHEN SINK GRIDS

Enhance the function of your sink with custom-fitted stainless steel sink grids. Featuring protective rubber feet and side bumpers, our durable sink grids provide a convenient area for drying glassware, utensils and plates. BLANCO stainless steel sink grids are dishwasher-safe and can be safely used on any countertop surface.

ELEVATED GRIDS

Elevated grids can be used in a variety of ways. Fill a pot of water without bending over, easily dry dishes, or rinse fruits and veggies. BLANCO elevated grids are heat-resistant and dishwasher-safe. Each of our stainless steel sink grids is custom designed for a perfect fit in your BLANCO sink.

FLOATING GRIDS

Floating sink grids gently hover above the sink bottom, and can be used as a secondary level for cleaning and prepping. Strong enough to hold the weight of heavy pots and pans, BLANCO floating grids can also be used as a countertop trivet!

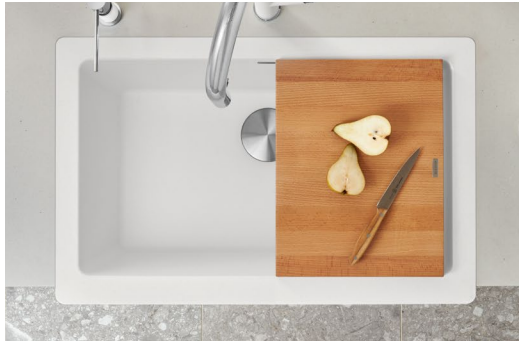

BOTTOM GRIDS

Custom-fitted stainless steel bottom grids protect your sink from dishes and utensils. Constructed of high-quality stainless steel, our sink grids not only protect the bottom of your sink from everyday wear and tear, they also add another layer of functionality.

CUTTING BOARDS, COLANDERS & BASKETS

BLANCO accessories are the ultimate in functional style – lightweight, food-safe and custom fitted to sit comfortably on your BLANCO sink. Our premium wood cutting boards stand up to whatever you're cutting, chopping, slicing and dicing, from within the sink or directly on your countertop.

CUTTING BOARDS

From Beech, Walnut and Ash Compound to Red Alder sourced from the United States – BLANCO cutting boards offer a superior cutting surface. Featuring rubber feet for safe use on countertops, our cutting boards are custom fit to conveniently glide over your sink, creating the ultimate workstation.

COLANDERS

BLANCO colanders are designed to conveniently hang over your sink. Made of stainless steel, they are both durable and dishwasher safe. Our ERGON stainless steel sink features a built-in accessory ledge.

MESH BASKETS

Our dishwasher-safe, stainless steel baskets are the ultimate prep companion. Sturdy, rubber-capped feet keep it slightly raised off the bottom of your sink. Mesh baskets are multi-functional and can be used for washing fresh product or as a drying rack for glasses and utensils.

BLANCOCLEAN, CAPFLOW & DRAINS

Missing the finishing touch? BLANCO kitchen sink basket strainers, CAPFLOW drain covers and cleaning products provide ongoing care and maintenance of our stainless steel and Silgranit sinks. Maintain the look of your new sink while preventing costly plumbing issues.

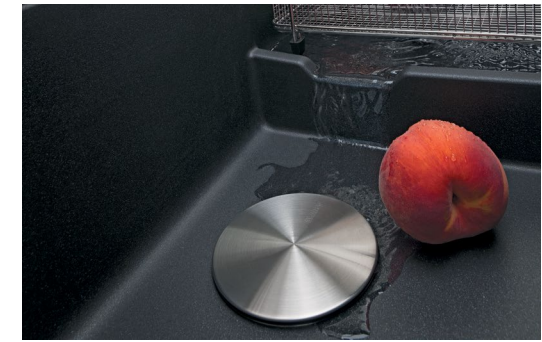

CLEANING PRODUCTS

BLANCOCLEAN DAILY+ sink cleaners for Silgranit and stainless steel are gentle, non-abrasive formulations designed to prevent the build-up of lime-scale and soap scum. Regular weekly cleaning will help extend the life of your new sink.

CAPFLOW

An elegant way to hide unsightly food particles trapped in your strainer. A diameter of 4 1/2" seamlessly covers standard 3 1/2" drains. Its flat surface reduces splashing and raised feet allow water to flow freely.

COLOR-COORDINATED DRAINS

Missing the finishing touch? BLANCO color-coordinated drains can be paired with our Silgranit sinks for a color-coordinated statement. Or choose stainless steel for a classic look. Our basket strainers and waste flanges fit the universal 3.5" drain opening.

SINK AND FAUCET CARE

How to Clean SILGRANIT

Daily cleaning: to clean marks and everyday traces of use from your sink, all you need is a sponge, mild dish soap or baking soda and water:

- Moisten the sponge under running water
- Add a small amount of dish soap or baking soda onto the soft side of the sponge
- With the soft side of the sponge, wipe in small, circular movements
- Rinse your sink with clean water and dry it with a microfiber cloth

Weekly cleaning: Limescale is a common challenge for Silgranit sinks. Did you know that most stains are caused by discoloration adhering to limescale? When you remove limescale, you also remove stubborn stains. We recommend removing limescale before starting any deep cleaning process. BLANCOCLEAN Daily+ for Silgranit or any mild acid-based cleaners (like lemon or vinegar) will remove limescale.

- Pour BLANCOCLEAN Daily+ on the sink area to be cleaned
- Leave for 1-2 minutes to take effect
- Wipe with a wet cloth or soft sponge
- Rinse the surface with water and dry with a microfiber cloth

Deep cleaning: once or twice a year we recommend to deep clean your sink with a mild liquid/gel laundry detergent:

- Close the sink drain
- Distribute the liquid/gel laundry detergent evenly onto the sink surface
- Fill the sink with hot water (heated up to 60°C / 140°F)
- Leave it to work at least 2 hours or ideally overnight
- Drain the solution and rinse the sink thoroughly with water
- Dry with a microfiber cloth

Want more tips on how to remove limescale, metal abrasions, and keep your white sink looking white? Visit our website at blanco.com/sgcare

How to Clean Stainless Steel

Daily cleaning: stainless steel surfaces are best cleaned immediately after use. This helps prevent limescale. The process is quite simple:

- Squeeze some dish soap onto the soft side of a sponge
- Wipe the stainless steel surface in the direction of brushed finish
- Rinse with clean water and dry with a microfiber cloth

Weekly cleaning: BLANCOCLEAN Daily+ for stainless steel is a gentle formula that provides extra care to reduce limescale and soap scum buildup. Regular use is recommended to extend the life of your BLANCO sink.

- Pour BLANCOCLEAN Daily+ directly onto the sink
- Let sit for 1-2 minutes to take effect
- Wearing a glove wipe with a wet cloth or soft sponge
- Rinse the surface thoroughly and dry with a microfiber cloth

Avoid these cleaning mistakes:

- Do not use aggressive cleaning agents, abrasive cleaners or bleach containing hypochlorite
- Do not use cleaning baths for silver
- Do not use prickly brushes or the scratchy side of sponges (especially pot scouring pads)
- Never use steel wool for cleaning

Aggressive cleaners and brushes can cause scratches and permanently damage the surface of your stainless steel sink. Learn more cleaning tips for stainless steel by visiting our website: blanco.com/sscare

How to Clean Faucets

Daily maintenance: When turning off your faucet with wet hands, you almost always leave drops of water on it. These dry and leave limescale behind. Visible limescale can form quickly, particularly in regions that have hard water. If you have hard water, you should dry the surface of your faucet with a microfiber cloth after each use. This will allow you to extend the intervals between regular cleanings.

Regular cleaning: If limescale has formed on your faucet, treat this with a mild, organic acid, e.g., a solution of acetic or citric acid. Important: before applying the substance, check whether your surfaces are resistant to acids. To remove limescale:

- Apply the cleaning agent to the soft side of a sponge and wipe the faucet down thoroughly
- Be sure not to leave acid-based cleaner on for longer than indicated on the package instructions
- Avoid lengthy, vigorous scrubbing with the rough side of a sponge, this can leave scratches
- Rinse the faucet with clean water and dry with a microfiber cloth
